Through USA and Europe region**

Campaign Period (July'19 – June'20)

Client: Larsen & Toubro Infotech

Let's Solve

Objectives

- ❑ Primary Objective – To relaunch the brand on online platform and maintain organic traffic.
- ❑ Secondary Objective – To increase online leads from USA and European Countries.

Challenges

- ❑ Increase B2B leads through organic medium.
- ❑ Highly competitive tech companies already owned dominant market share, which leads expensive results.
- ❑ Relunched brand term is too competitive to rank on Google.

Strategy on Google

- ❑ Increase Domain Authority : in comparison with the competitors website our domain authority and Alexa rank was too low. We identified high authority pages and links those to LTI website and Improved **DA by 5 points and Alexa rank by 12000**
- ❑ No. of First Page Ranking Keywords : We targeted **high search volume tech and Industry** keywords that generates more website traffic. We Achieved first page ranking for **563 keywords**.
- ❑ We started **account based SEO** activities, which helped LTI to win client accounts.
- ❑ We modified web pages for different devices to increase the conversion rate E.g **AMP pages** for mobile. This also helped us to reduce our Bounce rate

Achievements

**Discover more than 1K
keywords**

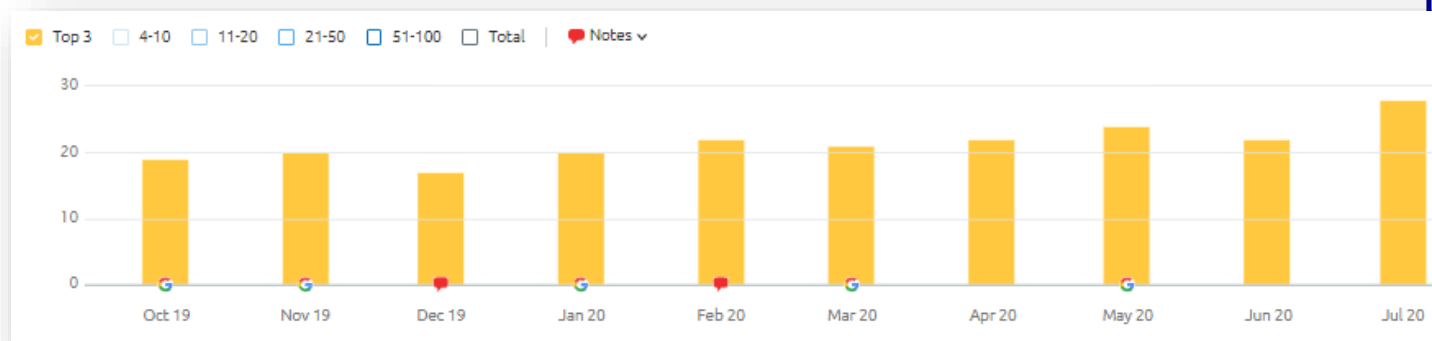

**Increase high quality
no. of backlinks and
removed spam links**
